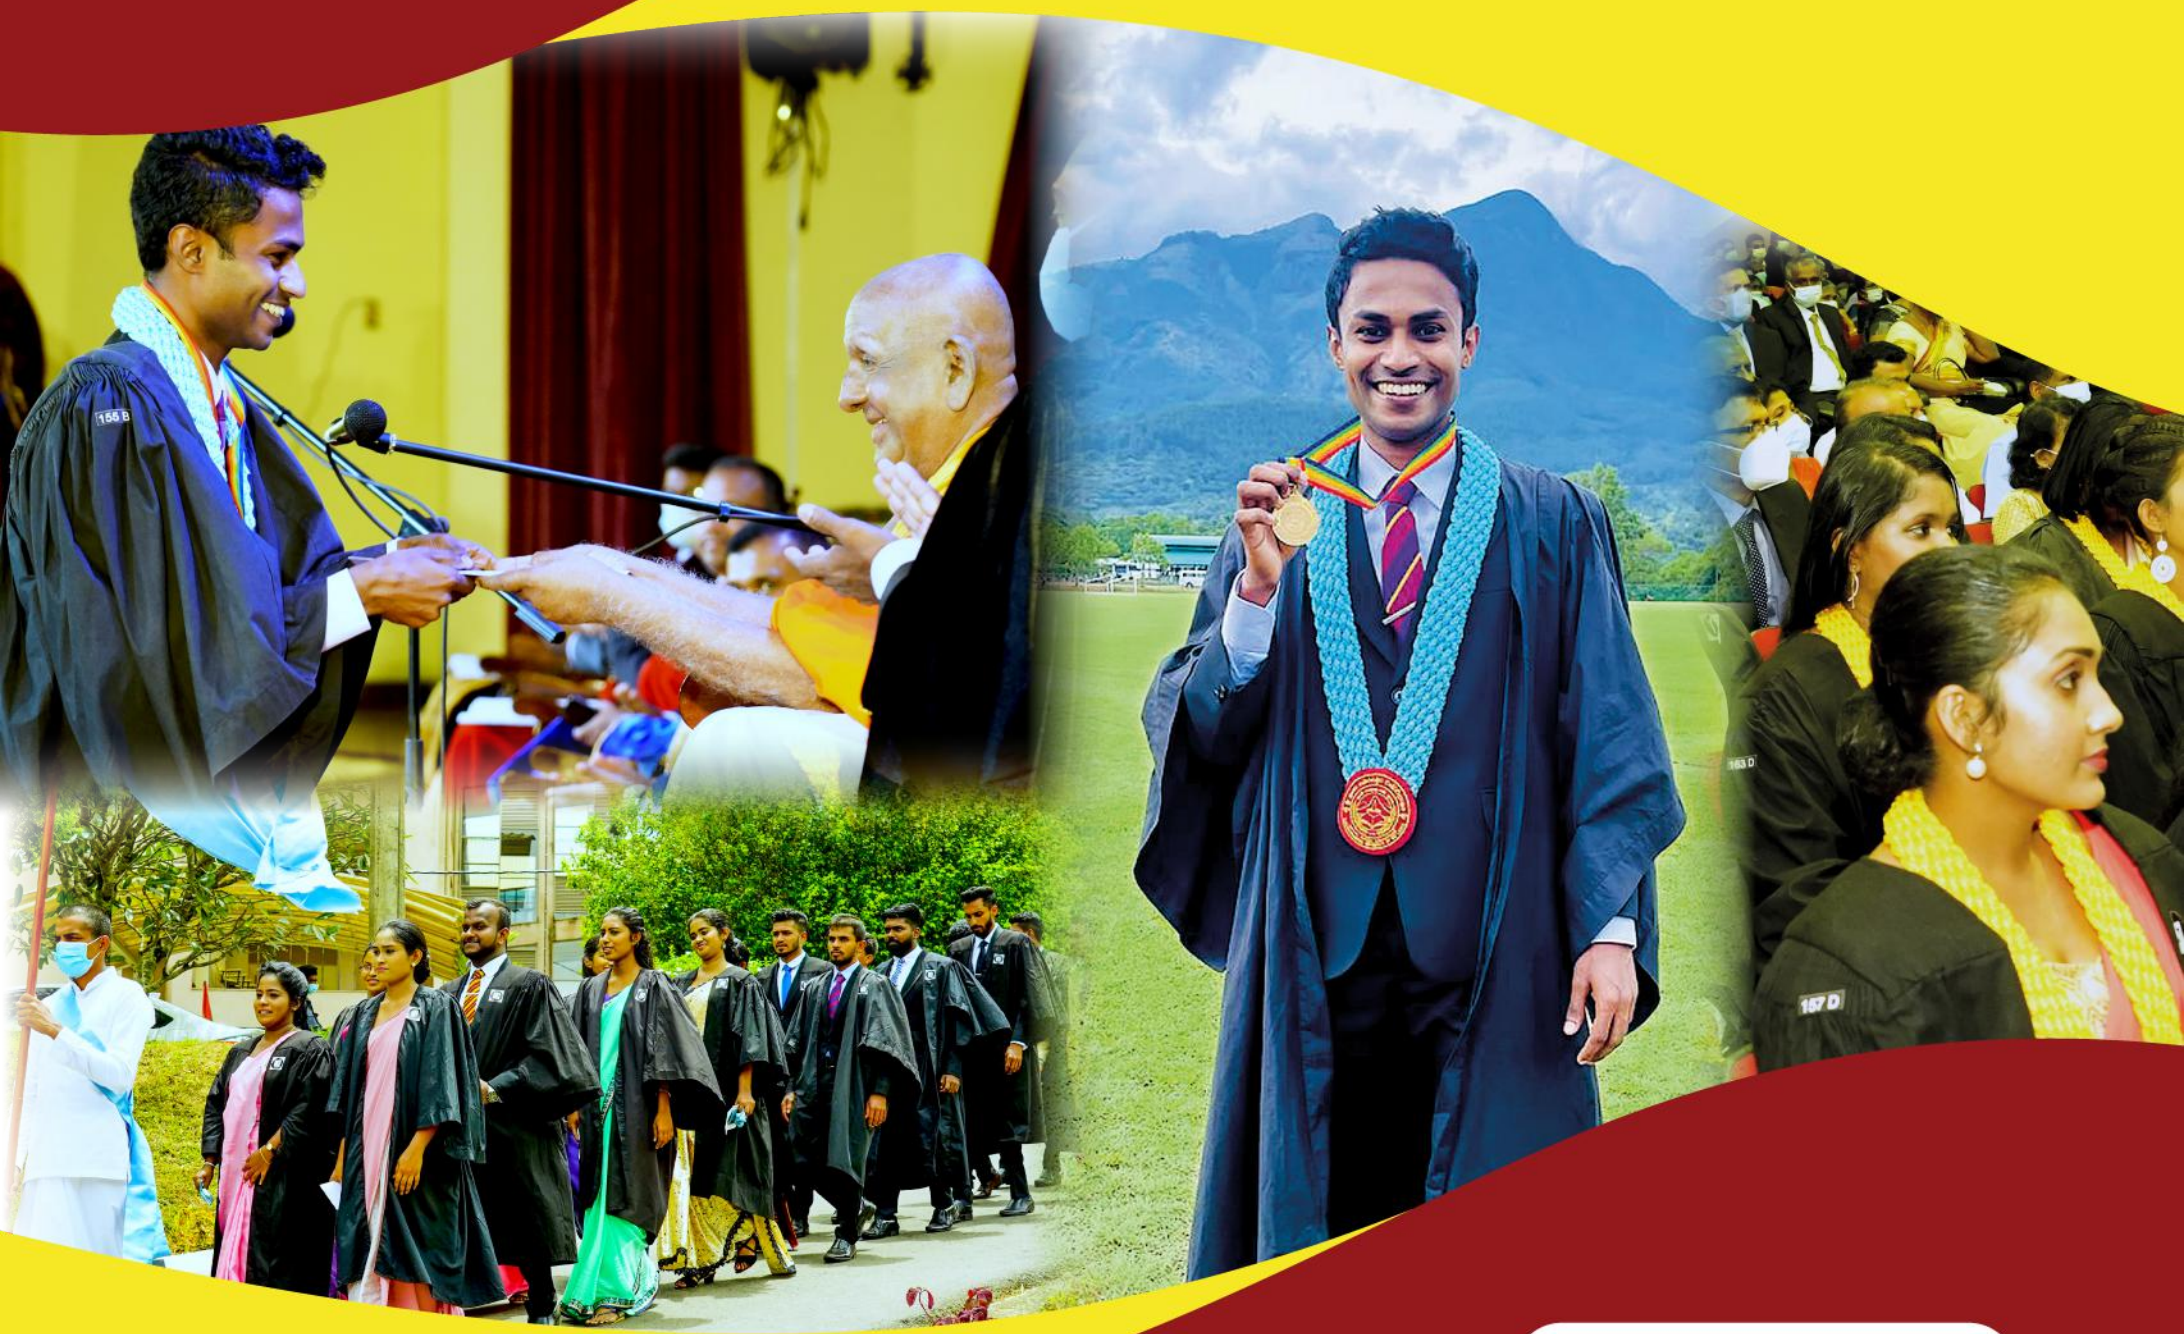
24th GENERAL CONVOCATION

SABARAGAMUWA UNIVERSITY OF SRI LANKA



Phase - II

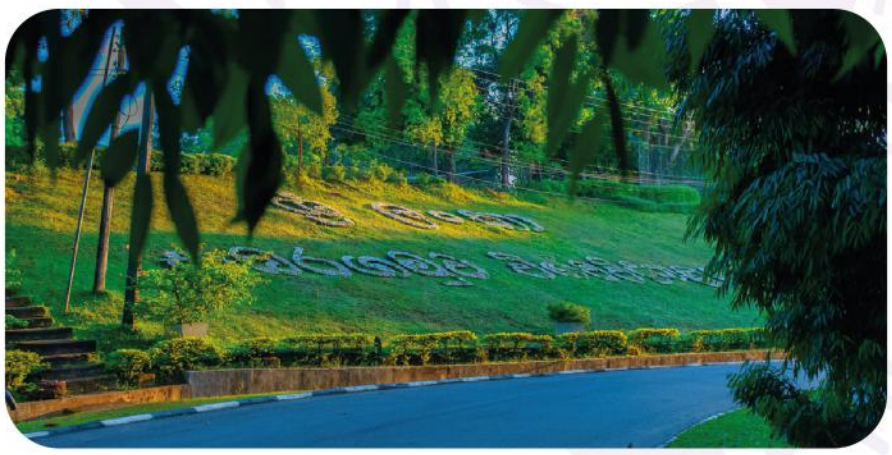
27th of July, 2023

AT PROFESSOR J. W. DAYANANDA SOMASUNDARA AUDITORIUM

SABARAGAMUWA UNIVERSITY OF SRI LANKA

Systematic education in Sabaragamuwa dates back to the times of King Parakramabahu II of the Dambadeniya Period, under whose patronage the Deva Pathiraja Pirivena, a 13th century monastic university, was created in the Palabaddala area of the Ratnapura District. The Sabaragamuwa University of Sri Lanka (SUSL) now stands as the present-day link to such tradition of knowledge and wisdom, which is the 12th national university of contemporary Sri Lanka.

The SUSL originated as an Affiliated University College linked to the University of Sri Jayewardenepura, named as the Sabaragamuwa Affiliated University College (SAUC), back in 1991 and was located in Belihuloya. On the recommendations presented by a committee appointed by the Ministry of Education and Higher Education in 1995, headed by the Deputy Minister of Higher Education, to explore the prospects of restructuring the affiliated university colleges, the government upgraded the SAUC to a national university, now known as the SUSL.The formation of the SUSL was declared through the Gazette Nofication No. 896/2 of 7th November 1995 under the section 21 of the Universities Act No. 16 of 1978. In the meantime the two Affiliated

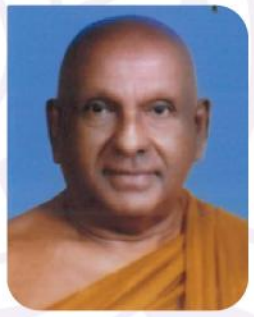


University Colleges at Rahangala (UAUC) and Buttala (BAUC), which had been linked to the University of Sri Jayewardenepura and the University of Peradeniya respectively and then were integrated to form the Uva Campus of the SUSL, became the Faculties of Agricultural Sciences and Applied Sciences of the SUSL and were subsequently relocated to Belihuloya itself. Much of the establishment now sits in the town of Pambahinna of the Belihuloya area while the Faculty of Medicine is in operation in Batuhena, Ratnapura.

SUSL celebrated its 26th anniversary this year as it continues its journey of honouring its obligations to the nation by giving rise to prominent academics, scholars, sportspersons and professionals.

The 'Amity Global Academic Excellence Award' presented to the SUSL in 2007 by Amity University, India, for its role in 'propagating the doctrine of knowledge' and creating 'many benchmarks in the field of education and research' is a resounding testament to the academic excellence that the SUSL stands for. Today, it is home to a community of nine faculties and over 8000 students, academics and members of the non-academic and administrave staff as it stands tall as a bellwether of Sri Lanka's progress.

Message from the Chancellor



It is with great pleasure that I pen this congratulatory message to the graduates of the 24th General Convocation of the Sabaragamuwa University of Sri Lanka. To overcome the obstacles it faces in attaining sustainable growth, a nation cannot be more proud than to have an intelligent and creative young population. You are celebrating this milestone achievement of your life at a time our country strives to reestablish social and economic progress, which depends on people being able to adapt to difficult and shifting circumstances. Therefore, today indeed is a remarkable day for the Sabaragamuwa University of Sri Lanka that it celebrates its newest graduates who are well prepared, committed, and will contribute to make our society empowered and stronger.

I sincerely feel that the efforts made by all of its Faculties to provide internationally renowned academic programs have paid off as you become the proud alumni of one of the most laudable higher educational institutions of Sri Lanka. I would also take this opportunity to appreciate the academic and administrative staff of Sabaragamuwa University of Sri Lanka for facilitating your academic journey so far.

I convey my congratulations again, and wish you every success. Let's move forward toward a thriving Sri Lanka.

Ven. Professor. Kaburugamuwe Vajira Thero
Ven. Chancellor - Sabaragamuwa University of Sri Lanka

Message from the Vice Chancellor

Convocation is indeed a big day for the students in their University life. Every student enrolled in a university awaits the day of graduation – the day of convocation. This day comes after a long interval for each student, but for the University, it remains an annual event. It is on this day, the University looks back to measure its achievement, while this day marks the beginning of a new journey for the students. The University feels proud witnessing the smiling faces of its graduates coming out with ceremonial cloaks holding their degrees. For the past twenty-six years, Sabaragamuwa University of Sri Lanka has proved that education, intellectual endeavors and world-class teaching and research facilities are not only for the rich but for everyone including the poor and the marginalized.

Looking beyond education has remained the forte of Sabaragamuwa University of Sri Lanka, and the University is determined to strive for a better world where knowledge and compassion would rule supreme. I always believe that graduation is both a concept and a process for all the students in SUSL. As you stand at the threshold of the next chapter of your life, let me remind you that the world you are going to be exposed to is no longer the same. It is my belief that the SUSL has nurtured you throughout your academic journey while inculcating essential skills that you may require to weather such challenges successfully. I urge you to make every challenge an opportunity for your success.

Since knowledge plays a vital role in the globalized world, there has been a growing need for International Collaboration. Globalization has created both inter-related and inter-linked world generating opportunities and throwing up challenges. Universities are now developing skills to cope up with these challenges. Thus, Sabaragamuwa University of Sri Lanka has been working towards meaningful collaboration with prominent international institutes of repute.

For the young graduates getting their degrees in this Convocation, I would like to say that the world awaits you to know what step you will choose. This is the time to discover your life's destiny; so be adventurous, spontaneous, and dare to be different in the world.

Live the dream, follow your heart, and view this moment as moving from a protected environment to an environment where you have to learn and listen because your whole world is going to be full of learning and listening. Your success is going to be your humility. While surging ahead, please take a pause to look around. Never ever forget the millions looking at you with hope.

My sincere congratulations and best wishes for you all for a very successful future!

Senior Professor. R.M.U.S.K.Rathnayake
Vice-Chancellor - Sabaragamuwa University of Sri Lanka

Message from the Registrar

Graduation is indeed a big dream for students all over the world. Every student enrolled in a university awaits the day of graduation. It is indeed a great pleasure for me to congratulate the graduates who received their degrees today, a day of one of the greatest satisfactions in one's life.

I would like to congratulate all the graduates receiving their degrees today. The convocation is the most remarkable event of their university life, reflecting their achievements and diligent efforts.

Graduation is the start of a dynamic professional career for them. When they are in society, I hope they will use the knowledge, skill and experience they have gathered during university life to give real service and leadership to their communities and try to be smart alumni of the Sabaragamuwa University of Sri Lanka.

Congratulations again to the graduates on their great accomplishment!

My sincere best wishes for their future endeavors.

S. Uyangoda
Registrar - Sabaragamuwa University of Sri Lanka

Message from the Dean, Faculty of Graduate Studies

It is indeed a pleasure to send this congratulatory message to the Twenty third General Convocation of Sabaragamuwa University of Sri Lanka (SUSL) scheduled to be held on 25th May 2023. I am really excited to see the faces with the pleasure of our graduates who are celebrating a turning point in their lives. I also take this opportunity to express my most sincere congratulations to our graduates who have worked hard to succeed in their studies. Your success - the fruits of several years of toil - is a significant achievement that would not have been possible without the support and encouragement of your families and friends, who sit proudly in our audience today. I also wish to express my sincere appreciation to the staff and the faculties who are with us for making an untiring effort in supporting our postgraduates in the successful accomplishment of their degree and being a productive human resource to the nation.

As I strongly believe, Graduate study is a rewarding, but often-challenging endeavour. While many of your scholarly and research activities will occur in the faculty of your program, FGS is here to help you navigate any obstructions encountered on your academic journey and to positively enhance your graduate student experience.

While congratulating you, it is reminded that education is a lifelong process that would give us the efficacy of life. It will make us knowledgeable and able personally equipped with socio-emotional skills like empathy. Hence, being a postgraduate student, kindly determine to flourish in your life with the light of wisdom. Once again, congratulations to all of you on your achievement, and I wish you all the very best in your future endeavors.

Prof. H.M.S. Priyanath
Dean - Faculty of Graduate Studies

Message from the Dean, Faculty of Agricultural Sciences

It is indeed a privilege to send a congratulatory message on the occasion of the 24th General Convocation of the Sabaragamuwa University of Sri Lanka. On behalf of the Faculty of Agricultural Sciences, I extend my sincere congratulations and best of luck to all graduating students.

Graduation is a significant milestone, and you should be very proud of what you have accomplished. Today's graduation celebration symbolizes years of hard work, commitment, resilience, and determination. Your science education has provided you with a firm foundation to broaden your knowledge and understanding of the world around you. Use this invaluable resource throughout your lives, wherever your education, career, passions, or travels may take you.

I believe that graduates of the Faculty of Agricultural Sciences are unique and versatile. Along with the degree you have acquired numerous skills at the Faculty of Agricultural Sciences to make a difference in the world. Finally, I wish all the graduating students a successful future.!

Prof. P.M. Asha S Karunaratne
Dean - Faculty of Agricultural Sciences

Message from the Dean, Faculty of Applied Sciences

On behalf of the Faculty of Applied Sciences, it is my great pleasure to offer you our congratulations on your graduation from the Sabaragamuwa University of Sri Lanka. Graduation is always a historic and momentous occasion that reflects a significant time in your lives and for your families, friends, and everyone else who has had the privilege of nurturing and supporting you. Most importantly, your degree represents your mastery of the body of knowledge you have learnt; it is also a testament to your character, ambitions, resilience, stamina, and determination. Thus, I am more proud of you than words can really articulate.

While the Batch of 2016/2017 has always been special, you really are an exceptional group of individuals, all rising to the challenges of dealing with multiple dimensions of the unfortunate Covid-19 pandemic on one hand and experiencing the turbulent economic crisis in the country, on the other.

Despite the fact we are celebrating your graduation today this is not the end; it is rather the beginning of a new journey - possibly one that is even more exciting and unpredictable. From the intellect and dedication you have shown thus far, I believe it to be one that is bright and promising.

With the power of knowledge and experience gained at the Sabaragamuwa University of Sri Lanka, I am confident that you will take the lead in driving our country toward sustainable development. May your professional paths forward be filled with exploration, joy, and satisfaction as you use your intellectual talents to improve lives and make the world a healthier and more sustainable place!

I encourage you and commend you for your success today. Once again congratulations on your greatest achievements and please keep in touch with us!

Prof. E.P.N. Udayakumara
Dean - Faculty of Applied Sciences

Message from the Dean, Faculty of Computing

Today is your convocation day.

Congratulations to all the Graduands who are about to receive their first academic degree at the 24th General Convocation of Sabaragamuwa University of Sri Lanka.

Four years ago, when you all first enrolled at this university, you all had a lot on your minds and felt awkward at first. You also first met your lovely new friends at that time, who not only made you feel at ease but also showed you that the best of life was yet to come. Your heart will always be filled with fond memories of university, which you will cherish forever. All of you came here as students; as time went on, things changed and you began to understand more about the world.

Numerous glimpses of university life, including little fights, romantic liaisons, admiring the beauty of girls, numerous conversations with friends about everything, sharing of sorrow and happiness, skipping classes, seeing movies, spending far too much time for playing, and yet you still have the energy to move around until the wee hours of the night studying for exams at the last minute.

You discovered a completely different educational environment at the university than you had in the past. Group work, projects, presentations, research, independent study, and training outside the system are all given much more importance.

You all gained a greater understanding of the value of the university study pattern as a result of working on these activities, which also helped you to develop and broaden your field-specific interests.
You've had the chance to collaborate closely with a number of lecturers who have inspired you with their originality, commitment, and persistence as well as the overall importance of completing this level of study.

Students, you must make the most of each stage of life because only then will you be able to live it with a smile.

Your first university life comes to an end today, and a new one is about to begin or has already begun.

Don't forget your department, your lecturers, and your colleagues as you bid a fond farewell to university life.
Finally, I wish all the graduating students a successful future.

Professor S. Vasanthapriyan
Dean - Faculty of Computing

Message from the Dean, Faculty of Geomatics

It is with great pleasure that I extend my warmest greetings to you on the occasion of the 23rd Convocation of our esteemed university. Since its inception in 1996, our institution has played a pivotal role in the development of higher education and the production of highly skilled and knowledgeable graduates who can tackle the challenges of our nation's progress.
The convocation ceremony is a momentous occasion that formally recognizes your dedication, hard work, and your worth as a graduate of Sabaragamuwa University of Sri Lanka. I would like to remind you that your journey to gain knowledge and skills should not end with the conferment of the degree. Instead, it is a lifelong journey that requires constant learning and hard work. You have worked hard and overcome numerous challenges during your time at Sabaragamuwa University of Sri Lanka. Now, it's time for you to apply what you have learned in practice and prove that you deserve the achievements you have attained.

I hope that you will continue to demonstrate the same level of enthusiasm and commitment that you have shown during your studies at Sabaragamuwa University of Sri Lanka, as you embark on your career paths. I have no doubt that you will achieve great things and make significant contributions to the development of our nation.
Finally, I congratulate all the graduates who will be receiving their degrees at this Convocation and wish them well in their future endeavors. I hope you will make a positive impact in your respective fields and continue to be ambassadors of the Sabaragamuwa University of Sri Lanka.

Dr. H.Divithure
Dean, Faculty of Geomatics

Message from the Dean, Faculty of Management Studies

At the very outset, on behalf of the Faculty of Management Studies, I'd wish to convey my heartiest congratulations and best of luck to all the graduating students of the year 2023 for your great accomplishment at the 24th General Convocation of the Sabaragamuwa University of Sri Lanka.
As you look back, I am certain you will see a long and winding path that has led you to this moment. The four years of the journey would have been long, perhaps exhausting, and not always joyful, but certainly, a fruitful and rewarding journey that has led you to this well-deserved proud moment. I am delighted that our graduates have overcome unforeseen circumstances to forge that path and arrive today as graduates.

Your academic contributions and dedication to the faculty and university, and your desire to continuously learn and innovate have been invaluable to the faculty, and I am grateful for the legacy that you're leaving behind. As you begin your careers or continue your studies with graduate or doctoral programs, I know that you'll be well prepared to lead in your perspective fields and continue to pioneer solutions to the grand challenges facing today's society, and will continue to serve as worthy ambassadors for the faculty by building upon our reputation for excellence.

Although you're graduating, you will always be a member of the FMS family.

We encourage you to stay connected with our faculty, join the Alumni Association, and give back by supporting our programs as your continued involvement with our alumni strengthens our faculty and the FMS community.

Lastly, I am confident that as you embark on your next adventure, the path you blaze will continue to make our faculty proud. As you move forward into your careers and life-long journeys, remember that your path continues, know that you can accomplish anything, and do great things with the knowledge you have acquired.
I wish you the best as you begin this next phase in your life.

Prof. Athula Gnanapala
Dean - Faculty of Management Studies

Message from the Dean, Faculty of Medicine

I wish to convey my heartfelt congratulations and best wishes on behalf of the Faculty of Medicine to all the graduands at the 2023 Convocation, Sabaragamuwa University of Sri Lanka. We are extremely proud of you who have accomplished your goals and aspirations through unwavering commitment and ardent dedication for scholarly excellence.
Despite health and economic challenges, you have successfully completed a demanding journey of your academic life. As an institution with rich traditions and experienced staff, we have been able to adapt new ways of learning and living to overcome the challenges in order make you all feel esteemed about your accomplishments.

There is no success without hard work and perseverance. We are witnesses of your success stories. Hence, this memorable day can be emblazoned with your parents and friends who have made numerous sacrifices along the way.
As you commence a new way of life which leads you all to a career community, remember that your new journey continues with new challenges and you can win them over, with the knowledge and experience you have gained and learned at the Sabaragamuwa University of Sri Lanka.
We once again congratulate you all for your future endeavours.

Dr. N.D.A. Wageesha
Dean - Faculty of Medicine

Message from the Dean, Faculty of Social Sciences and Languages

Representing all the academics of the Faculty of Social Sciences and Languages, I convey this congratulatory message to every student who is graduating today at the 24th General Convocation of the Sabaragamuwa University of Sri Lanka. I am glad to see their faces full of pleasure about the greatest achievement in their lives so far—a remarkable milestone that decides every step of their future journey. I believe that the families and friends of these graduates would be extremely proud of their great success, as they represent the minority of Sri Lanka's young generation who obtained the utmost outcome of the dedication of this whole country.

While offering my sincere compliments to our graduates, I would like to remind them that their degree is extremely important, but that alone is not sufficient to be successful in life and achieve all their future targets. Along with subject knowledge, technological and communication skills, creativity, discipline, logical thinking, and problem-solving ability are essential to perform well in any career and to contribute to the country's success at the macro level. I am sure that the whole bunch of learning and extra-curricular activities that they engaged in as undergraduates of Sabaragamuwa University of Sri Lanka have provided them with a proper foundation, with these skills and capabilities, as well as a positive attitude. I also appreciate the hard work and dedication of the staff of our faculty, who provided these graduates with the necessary support and guidance to form their academic life meaningfully and with confidence.

I wish all the best to our graduates with their future endeavors.

Prof. Sampath Fernando
Dean - Social Sciences and Languages

Message from the Dean, Faculty of Technology

It is with great pleasure I share this congratulatory message for the 24th Convocation of the Sabaragamuwa University of Sri Lanka as the Dean of the Faculty of Technology. On behalf of the Faculty of Technology, Sabaragamuwa University of Sri Lanka, I extend my warmest wishes to all the graduating students of the year 2023. Graduation is the harvest of your four years of hard work and dedication towards education during university life. All of us, as you too, are very proud of one of your great achievements in your life. We know how you sacrificed your life for this great achievement. You had less sleep, more work, more travelling, more examinations, less facilities during the last four-year period. Although you had some sweet memories, most of the time you were suffering from various stresses. However, when you turn back after these four years, you would see that you have gathered a vast amount of experience for your life. Together with the knowledge, and skills you gathered from the course work, the experience gained from university life may sharpen your future life and that will definitely be an anchor for your future successful life. Not only that, you have met some good friends, good mentors, and good teachers during this period. They may be with you whenever you are in a trouble in the future, as they were in the past. With all these, now you are well armed to step into real society. As teachers, and adults, all of us are expecting you to be a good citizen of the country and serve the nation honestly.
Today, you are garlanded by the free education of the country, keep it in your mind, and try to garland the motherland with your special knowledge and skills as a reward.

Good luck and congratulations!

Prof. Kaveenga R. Koswattage
Dean - Faculty of Technology

AWARD OF GOLD MEDALS

Faculty of Geomatics

01 **Surveyors' Institute of Sri Lanka Gold Medal**
(Awarded by Surveyors' Institute of Sri Lanka)

Awarded to the best student in the Faculty of Geomatics.
Who obtained Second Class Upper Division Degree with the highest final grade point average in the degree examinations.

Undugodage Hasitha Gimhan Rodrigo
and
Mahawaththage Nishamani Tharunika

02 **George Herat Memorial Gold Medal**
(Awarded by Late Dr. S T Herat)

Awarded to the best performance in Geodesy in the Faculty of Geomatics.
Who obtained a Second Class Upper Division Degree with the best performance in Geodesy in the degree examinations.

Karunanithy Gajanan

03 **Student of the Faculty Gold Medal**
(Awarded by Faculty of Geomatics)

Awarded to the excellent overall performance in the Faculty of Geomatics.

Not Awarded

Faculty of Computing

01 **Thambippillai Thambiratnam (J.P.U.M) – Attorney at law Memorial Gold Medal**
(Awarded by Prof. S Vasanthapriyan)

Awarded to the student with the best performance in Computing & Information Systems.
Who obtained a First Class Degree with the highest final grade point average in the degree examinations.

Saleem Adeeba

02 **Best Undergraduate Researcher of Computing - Gold Medal**
(Awarded by The Department of Computing & Information Systems)

Awarded to the student with the best undergraduate research in computing of the Department of Computing & Information Systems.
Who obtained a First Class Degree in the degree examinations.

Saleem Adeeba

Faculty of Applied Sciences

01 **Prof. W S Fernando Gold Medal**
(Awarded by late Prof. W S Fernando)

Awarded to the student with the best performance in Chemical Technology in the Department of Physical Sciences and Technology.
Who obtained a Second Class Upper Division Degree with the highest final grade point average in the final degree examinations.

Harishchandra Patabadige Senuni Harishchandra

02 **D S Rupasinghe Memorial Gold Medal**
(Awarded by Prof. M S Rupasinghe & the Family)

Awarded to the student with the best performance in Environmental Sciences & Natural Resource Management in the Department of Natural Resources.
Who obtained a First Class Degree with the highest final grade point average in the final degree examinations.

Deveni Guruge Gayathri Chamanee

03 **Prof. Indraratne Balasooriya Memorial Gold Medal**
(Awarded by Mrs. Chinta Balasooriya)

Awarded to the student with the best performance in Food Science & Technology in the Department of Food Science & Technology.
Who obtained a Second Class Upper Division Degree with the highest final grade point average in the final degree examinations.

Egodahettiarachchige Don Pushpamal Tharindu

04 **Mr. and Mrs. M.B.S. Palipane Memorial Gold Medal**
(Awarded by Prof. K B Palipane)

Awarded to the student with the best performance in Food Engineering in the Department of Food Science & Technology.
Who obtained a Second Class Upper Division Degree with the highest final grade point average in the final degree examinations.

Egodahettiarachchige Don Pushpamal Tharindu
and
Cader Mohideen Ruskana Vanu

05 **Prof. K.K.D.S. Ranaweera Gold Medal**
(Awarded by GST Active (Pvt.) Ltd.)

Awarded to the student the best performance in the final year research project in B.Sc. (Honours) Degree Programme in the Department of Food Science & Technology.
Who obtained a Second Class Upper Division Degree with the highest score for the final year research project in the degree examinations.

Jayasekara Mudiyanselage Umasa Sandani Wijenayake

06 **Prof. Jan Wright Gold Medal**
(Awarded by Ms. T P Liyanage)

Awarded to the student with the best performance in Physical Education in the Department of Sport Sciences and Physical Education.
Who obtained a Second Class Upper Division Degree with the highest final grade point average in the degree examinations.

Hapuwale Gedara Maleesha Malkishari Amarasingha

07 **Prof. Mahinda S Rupasinghe Gold Medal**
(Awarded by Dr. S Joniton)

Awarded to the student with the best performance in Sport Sciences and Management in the Department of Sport Sciences and Physical Education.
Who obtained a First Class Degree with the highest final grade point average in the degree examinations.

Hewa Pathiranalagei Pamudika Gayathri Sanjana Pathirana

08 **Dr. M.D. Ranaweera Gold Medal**
(Awarded by Mr. H.A.P.Kumara)

Awarded to the best all-rounder among the students in the fields of Sport Sciences and Management & Physical Education.
Who obtained a Second Class Upper Division Degree in the Department of Sport Sciences and Physical Education.

Jathunga Arachchige Lahiruni Nisansala Jathunga

09 **Honorable Lalith Athulathmudali Memorial Gold Medal**
(Awarded by Prof. G D Kapila Kumara)

Awarded to the student with the best academic performance of the University.
Who obtained a First Class Degree in BA Honours in Information and Communication Technology with the highest final grade point average in the degree examinations.

Koshila Isuri Senadhira

10 **Student of the Year Gold Medal**
(Awarded by Vice Chancellor of the Sabaragamuwa University of Sri Lanka)

Awarded to the student with excellent overall performance of the University.
Who obtained a First Class Degree in BA Honours in Information and Communication Technology with the best performance in academic and extra curricular activities.

Koshila Isuri Senadhira

Student of the Year

Koshila Isuri Senadhira

(Faculty of Social Sciences and Languages)

Congratulations !

Faculty of Graduate Studies

The Faculty of Graduate Studies (FGS) is the sixth Faculty of the Sabaragamuwa University of Sri Lanka (SUSL) established in 2015. FGS presently coordinates the postgraduate study programmes, especially the taught ones which are in great demand and designed by the faculties of SUSL. Moreover, it offers Research Higher Degrees leading to a Master of Philosophy and Doctor of Philosophy as well. The availability of several non-traditional, yet technologically influential courses leading to graduate qualifications has left a positive mark on the university, thus highlighting the distinctiveness of the FGS within the national university system. The potential in synthesizing research-based knowledge with the universal knowledge pool will add more value to the uniqueness that so far made our place of history as SUSL. Such effort, as we believe, may not only help define what "Sabaragamuwa" has contributed to human civilization but how twenty-first-century humanity may in turn gain from us for its future enlightenment.

Within this border spectrum, FGS offers a wide range of postgraduate studies related to the field such as Agricultural Sciences, Computing, Geomatics, Humanities, Management, Physical & Natural Sciences, Social Sciences, Sports Science & Physical Education, Technology, Medicine, and Indigenous Knowledge & Community studies.

FGS presently offers several taught programmes including a postgraduate diploma in business administration, a Master of Business Administration (MBA), MBA in Finance. MBA in Marketing, MBA in Tourism, MSc in Ayurvedic Hospital Management, MSc in Surveying Sciences, Master of Information Technology, and postgraduate diploma in English & Education, MA in English & Education. Moreover, it offers Research Higher Degrees leading to Master of Philosophy (MPhil) and Doctor of Philosophy (PhD) as well. Further, the FGS plans to offer a Master of Business Economics and MSc in Business Economics in the near future.The students who follow the postgraduate degree programmes available in the theses fields certainly benefit in widening their research-based knowledge not only to enhance their carrier progression but also to redefine the existing ontologies to reach beyond national spatiotemporal horizons. FGS is also certain that the research philosophies that encourage perceiving the existing realities differently may help to change them forever. Thus, the objective of the FGS is to provide an opportunity, as well as to facilitate effective and efficient delivery of study programmes through quality teaching and research training to produce individuals with graduate qualifications in their respective disciplines, who are competent in facing the challenges of development both locally and internationally.

Faculty of Agricultural Sciences

The Faculty of Agricultural Sciences consists of three academic departments, Livestock Production, Agribusiness Management and Export Agriculture, to take care of different disciplines related to agriculture. The faculty works with a goal of producing graduates of two Bachelor of Science (Hons) degree programmes in Agricultural Sciences and Management and Food Business Management which are proficient in selected agricultural disciplines and practical skills in agriculture to contribute towards the manpower requirements of the nation. Hence the graduates are built up to have broad knowledge in agriculture related areas of plantation, horticulture, livestock, agribusiness management and food business management.

The Department of Agribusiness Management provides the opportunity for the students to specialize in business management in agriculture and food business management. The department opens the door for the students to apply their theoretical knowledge towards commercialization of agriculture. The Department of Export Agriculture has three modules to produce graduates specialized in either agri-environmental resource management, crop improvement and plant protection or crop production technology with knowledge and skills in advanced agricultural technologies and capable of managing horticultural and plantation operations at any scale. The Department of Livestock Production takes measures to produce graduates proficient in different fields such as aquaculture, meat science, animal feed, dairy production, animal reproduction and management, poultry production and many areas related to animal sciences and molecular biology.

The graduates can aspire for a career at middle and top managerial levels including overseas employment opportunities.The teaching farm of the faculty provides a sound practical training on production and management of all kinds of crops and livestock species. The processing unit has been set-up for processing milk and meat where students can learn about the procedures of processing. The practical and research work related to food processing are conducted in this processing unit established next to the faculty farm. The Agri-fac Farm-Stay is a key attraction of the faculty which caters for foreign and local tourists. Besides being a profitable business, the farm stay allows students to acquire the practical experience on running an agro-tourism business. Members of the academic staff have won prestigious national awards such as the Presidential Award and National Research Council Awards for research publications during the past few years for their outstanding research endeavors. The faculty undergraduates brought international reputation to the faculty by representing the faculty at various events around the world. In 2018 and 2019, the faculty secured two competitive grants of Research, Innovation and Commercialization (RIC) worth 100 million, as funded by the AHEAD project of the World Bank, which is being implemented to further enhance the research and innovation capacity of the faculty.

Faculty of Applied Sciences

Faculty of Applied Sciences offers nine BSc and BSc Hons degree programmes in a wide spectrum of applied disciplines, namely Food Science and Technology, Environmental Sciences and Natural Resources Management, Chemical Technology, Computer Science and Technology, Applied Physics, Sport Sciences and Management, Physical Education, through our four academic departments. English is the medium of instruction and all degree programmes are enriched with a strong industry-oriented research and development component to stimulate critical and analytical thinking capabilities of undergraduates. Our degree programmes, with their constantly revised curricula to comply with industry requirements, are highly dynamic and target to produce resourceful and entrepreneurial graduates who will contribute to the national and international development by innovative ideas and products through creativity, flexibility and advanced problem solving skills.

Our academics and supportive staff are committed to enrich the quality of the student experience and to cultivate skills for lifelong learning by providing in-depth disciplinary knowledge and adopting new pedagogical methods and modes of learning. The faculty has pioneered efforts to introduce degree programs in the disciplines of Sport Sciences and Management and Physical Education to the Sri Lankan university system, which are well established now. The high level of industry orientation in the degree programmes facilitated by career guidance, and activities like annual career fair is well demonstrated by a high percentage employability of graduates within six months after graduation, currently estimated to be around 80%. Further enhancement of the industrial and research collaboration is in progress with initiatives such as Memoranda of Understanding with respective partner organizations and institutes. The degree programmes we offer are further enriched through student and staff exchange programmes and Research and Development collaborations with reputed international universities.

Our faculty members constantly secure competitive grants from external funding sources including National Science Foundation, National Research Council to carry out high impact research, gaining high level of recognition such as the President's Award for scientific publications and other prestigious awards. Further, with the recruitment of postgraduate research (MPhil) students, the scope of research conducted at the faculty has been continuously expanding. In addition, we have recognized our role as an academic establishment towards the community and strive for effective community outreach and empowering local communities through various programmes. The Faculty fosters innovation and invention within our student community through numerous initiatives such as Symposia, the Innovation Centre and Learning Commons, and Inventor's club. Our undergraduates demonstrate their outstanding team working skills by participating in numerous local and international competitions. Recent events include Hangzhou Asian Games – 2023, the South Asian Football Federation Women's Championship – 2022, and Pro Food Pro Pack AgBiz Exhibition 2022 where they became champions in Best Green Innovation, second runner up of Best Commercially viable product and Best Stall.

Faculty of Computing

At the beginning of the new year 2023, the Sabaragamuwa University of Sri Lanka celebrated yet another significant milestone that adds to its legacy of outstanding achievements. Thus, the Faculty of Computing (FoC) was established as the 9th Faculty of the Sabaragamuwa University of Sri Lanka (SUSL) by an Order made under Section 27(1) in the Gazette Extraordinary 2312/14 dated 27th December 2022.

In a backdrop where computing has become an essential component in shaping the future for humanity, the efforts of SUSL to produce graduates with the perfect blend of theoretical and practical knowledge, who cater to the demands of today's IT/BPM industry, can now be furthered with the establishment of the FoC.

The total number of annual intake being 290, the Faculty comprises three academic Departments - Computing and Information Systems, Data Science, and Software Engineering - along with numerous units and committees dedicated towards producing educated and cultured individuals.

The design of all the curricula align with the Association for Computing Machinery/ Institute for Electrical and Electronics Engineers (ACM/ IEEE-CS) curriculum guidelines, enabling it to absorb the state-of-the-art in computing education and practice. As a remarkable achievement, in November 2022 the BSc Honors Degree Programme in Computing and Information Systems offered by the Department of Computing and Information Systems, received Grade "A," - the maximum level of accomplishment and quality expected of a degree programme in the Programme Review conducted by the Quality Assurance Council of the University Grants Commission, Sri Lanka.

The Faculty has identified knowledge creation and dissemination as its academic responsibility. Accordingly, the Faculty conducts an international conference annually i.e. International Conference on Advanced Research in Computing (ICARC). Moreover, the Faculty publishes one peer reviewed journal i.e Sabaragamuwa University Journal of Computer Science and one magazine i.e ComSpective, the bi-anual ICT Technical Magazine.

The Faculty makes all attempts to adopt student-centered teaching and learning with judicious mix of conventional and modern methods and tools. With its proven capacity and collective effort, strengthened by the cooperation of all its stakeholders, the FoC is confident in continuing to grow, ensuring access to human capital and well-equipped physical infrastructure in delivering high-quality computing education.

Faculty of Geomatics

The Faculty of Geomatics offers a four-year BSc (Honours) degree programme in Surveying Sciences which covers the principles of surveying sciences, geodesy, adjustment theory, cartography, photogrammetry, remote sensing, GIS, hydrographic surveying as well as mathematics, physics, computer applications, economics, management, environmental science, and other allied sciences.

The subjects taught during the first five semesters of the programme are common to all students in which all aspects of surveying science are taught. During the next two semesters, the students choose among five areas of specialization, namely Surveying and Geodesy, Hydrographic Surveying, Land Management, Remote Sensing, and Geographic Information Systems. The last semester is reserved for industrial training.

In Sri Lanka, this degree programme is recognized as the basic academic qualification to become a professional surveyor. Internationally, it has been accredited by the Royal Institution of Chartered Surveyors (RICS) since 2015. Additionally, the specialization degree in hydrographic surveying is recognized by the International Board on Standards of Competence (IBSC) for Hydrographic Surveyors and Nautical Cartographers under the Category B level (FIG/IHO/ICA-Cat B). Moreover, the faculty is an academic member of the International Federation of Surveyors (FIG).

Faculty of Management Studies

The Faculty of Management Studies of the Sabaragamuwa University of Sri Lanka is one of the pioneering faculties thriving with numerous successes since the inception of the university. The faculty, being the university's largest faculty, with four departments, Accountancy & Finance, Business Management, Marketing Management, and Tourism Management, offers seven Bachelor of Science Honours degree programmes in Banking and Insurance, Business Management, EcoBusiness Management, Financial Management, Hospitality Management, Marketing Management, and Tourism Management, exclusively recognized across the world for the benchmark academic exposure. It is worth noting that all degree programmes offered by the faculty were evaluated by the QAC/UGC and awarded 'A' grades. The faculty has now ventured into offering exclusive postgraduate degree programmes, MBA and M.Sc. in Ayurvedic Hospital Management, in collaboration with the Faculty of Graduate Studies. The faculty conducts two international conferences annually i.e. Interdisciplinary Conference of Management Researchers (ICMR) and the Management Undergraduates Research Session (MURS). The Faculty of Management Studies is the exclusive managing partner of the South Asian Journal of Marketing published by Emerald Publishing. Simultaneously, the faculty publishes two noteworthy journals namely, the South Asian Journal of Tourism and Hospitality (SAJTH) and the Asian Journal of Management Studies (AJMS). In addition to that, Faculty features Udyama – Management Digest Business Magazine FMS Today Newsletter on a bi-annual basis, and Tourism in Paradise (TIP) Magazine on an annual basis.

Faculty of Medicine

The Faculty of Medicine at the Sabaragamuwa University of Sri Lanka is the latest addition to the chain of Medical Faculties in Sri Lanka. It was established in the year 2018 under the Gazette Notice No. 2082/32 of August 01, 2018. It became the 8th Faculty at the Sabaragamuwa University of Sri Lanka. The medical profession caters to one of the most crucial needs of the society and therefore, it stands to reason that medical degrees are among the most challenging and competitive qualifications to pursue. The Faculty is comprised of 15 Departments that are dedicated to achieving all aspects of its academic mission and objectives. The academic elements of the MBBS Degree Program are based on four main disciplinary pillars: theoretical components, education, clinical care, community engagement, and research. The Faculty of Medicine was established in Kuruwita temporarily where the preclinical studies of the degree programme are conducted.

However, the New Faculty building is constructed on a land in New Town, Ratnapura and the Professorial Unit will be constructed adjacent to the Teaching Hospital, Ratnapura. The administrative building of the New Faculty premises was ceremonially inaugurated by the Vice-Chancellor of the Sabaragamuwa University of Sri Lanka on 19th October 2022. Further, the Faculty will be equipped with both human and physical resources with state-of-the-art technologies to provide the best academic and learning environment for the students. The Teaching Hospital, Ratnapura provides all clinical training facilities for the students. The faculty accommodates about 100 students per intake and at present with 05 batches of students enrolled for the MBBS degree programme it has about 480 students in total.

Faculty of Social Sciences and Languages

The Faculty of Social Sciences and Languages had its beginning at the same time the university commissioned her study programmes in 1996. The faculty initially possessed two departments of study: the Department of Languages and the Department of Social Sciences. The Department of English Language Teaching was initiated in 2004 as the third department, while the fourth, the Department of Economics and Statistics, commenced in 2009, and the fifth, the Department of Geography and Environmental Management, in 2015. In pursuit of its vision and mission, the faculty offers Bachelor of Arts Honors Degrees and a Bachelor of Arts General Degree. The faculty conducts the BA General Degree programme with the support of all the academics in the faculty. The Department of Economics and Statistics offers Honours degrees in Economics, Statistics, and Information and Communication Technology. The Department of English Language Teaching offers Teaching English as a Second Language (TESL) as a major or minor subject and English language courses throughout the students' university career.

The Department of Geography and Environment Management offers a Bachelor of Arts Honors in Geography, while the Department of Languages offers BA Honors degrees in Sinhala, Tamil, English, German, Japanese, Chinese, Hindi, and Translation Studies. Honours degrees in Political Science and Sociology are offered by the Department of Social Sciences. The faculty prepares students for professional careers by providing them with a broad understanding of the humanistic tradition in combination with a sound knowledge of subjects in several disciplines.

The Department of Information Technology is the sixth department which is attached to the Faculty of Social Sciences and Languages at Sabaragamuwa University of Sri Lanka. This Department was established under Gazette Extraordinary No. 1903/63 on February 27, 2015, by the Ministry of Higher Education with the recommendation of the University Grants Commission.

The formation of the Department of Information Technology has improved the framework for instruction and research in information technology and created opportunities for designing new programs that meet emerging market requirements. The department helps to produce graduates with knowledge of computing by offering a Diploma in Information Technology, equipped with essential computer technology-related knowledge in general, along with intellectual discipline and analytical skills that will enable them to contribute positively to society. The department invites knowledge seekers to join them and not miss the opportunities to learn and practice IT with applications.

The programmes emphasize the ability to apply this knowledge to problems and tasks in the contemporary world of work. The faculty strives to develop students' capacity for independent critical thinking, logical analysis, effective communication, and informed participation in teamwork. The faculty offers innovative degree programmes in modern infrastructure facilities and a learner- and researcher-friendly environment.

Faculty of Technology

The Faculty of Technology is a recent addition to Sabaragamuwa University of Sri Lanka. The Faculty consists of two academic departments, the Department of Biosystems Technology and the Department of Engineering Technology through which two full time undergraduate degree programmes, Bachelor of Biosystems Technology Honours (BBST) and Bachelor of Engineering Technology Honours (BET), are offered respectively. The faculty accommodates 120 students for each degree programme annually.

BBST degree programme spans over a period of four years, of which the first two years are allocated for a common core programme. From the third year onwards, the department offers three major programmes; Bio-Energy, Biotechnology and Drug Discovery. BET degree has been designed to prepare students for professional careers mainly in the mechanical and electrical engineering service fields as well as research and development activities. Graduates of the Faculty of Technology will be highly employable, dynamic, and potential inventors who will be competent in applying basic science and actively participate in the socioeconomic, scientific, technological advancement, and the sustainable development of the nation.

Initially, the faculty was located at a temporary site in the main university premises and the construction of state-of-the-art, fully-fledged faculty complex has commenced from a grant worth USD 31 million from the Asian Development Bank. Phase I of the new faculty complex comprising several laboratories including Electrical Engineering, Mechanical Engineering, Bioenergy, Biotechnology, Microbiology, Pharmacology laboratory and Drawing Room were declared open on January 2023.

As a continual staff development activity, several staff members of the Faculty of Technology participated in an International Exposure Program at Asian Institute of Technology, Thailand, which was designed to enhance and modernize the capacity of academic programs.

The scope for high impact research outcome within the faculty has broadened with several of our academics securing competitive research grants under diverse disciplinaries through STHRD project funded by ADB bank, collaborating with several other faculties of SUSL and recruiting post graduate students to work under the projects along the way. The recent MOU signed with Meiji University, Japan would further allow the expansion of knowledge and research through mutual exchanges of opportunities for undergraduate and graduate students of the faculty.

THE LIBRARY – SABARAGAMUWA UNIVERSITY OF SRI LANKA

The library, Sabaragamuwa University of Sri Lanka is the heart of the university in dissemination of information, information sources and other resources to the university community and beyond. It consists of three faculty libraries attached to the faculty of agricultural sciences, management studies, and medicine in addition to the main library. During the past year the library has taken numerous initiatives has been taken to become a sustainable library.

The library acquires, organizes, develops the collections, and provides access to information and information sources related to ensure the teaching – learning process of the university. In addition, library academic staff support in literature searching, introducing searching techniques, conducting literature survey, citation and referencing, Turnitin similarity checking and plagiarism prevention, predatory publication prevention, layout designing of dissertation/ thesis, developing, and maintaining the research profile and career profile and CV writing at the newly established "Research Cube" to ensure life-long and self- learning.

The library is being promoted as a place for reading, reference, and research works. In addition, 24/7 reading hall facilities are provided throughout the year. The library opening hours are extended on demand of the user request. The newly established Cyber Zone facilitates users with internet access with better bandwidth to access VLE and other online based platforms.

Integrated library management system (KOHA) enhances effectiveness and efficiency and reduces human errors being a replacement for manual operations. Official library website, Facebook page, YouTube channel, Twitter page are used to mirror the library services, functions, operations, rules and regulations, events, news; brand and promote the library within the university community and beyond. Instant chat service enabled in the library website reduces the payments for other communication channels and facilitates users with quick responses.

Promoting online learning through the providing access to e-resources including scholarly e-databases, e-journals, e-books, e-resource packs with animated video clips, e-government information sources, uninterrupted internet facilities through the newly established Cyber Zone, scholarly videos in the official YouTube channel of the library. The digital repository maintained by the library is a showcase of the institutional research and publications of the entire university community. The barrier-free access to the digital repository guarantees "information access for all".

Library Quality Assurance Cell (LQAC) functions as a key unit to enhance productivity, ensure authority and reliability, assure the performance/service and product quality, and standardize the library and library related activities. Green library project, awareness and productivity workshops, outreach programmes and policy formulation discussions are organized under the LQAC.

Inter Library Loan (ILL) Service, and collaboration with existing library networks such as Sri Lanka Science and Technology Information Network (SLSTINET), Health Literature, Library, and Information Services (HELLIS), Agricultural Information Network (AGRINET) ensure the barrier-free, fair, and equal information access are given to the users at SUSL and in other HEIs and research institutions.

Regular magazine donation by the Library Assistants Union-SUSL to the school libraries, consultation of public library restructuring at Opanayake, monthly coffee table discussion "Plazz cafe", human library project, book donation to Pallebedda orphanage marks the outreach activities of the library.

THE CAREER GUIDANCE UNIT

The Career Guidance Unit of Sabaragamuwa University of Sri Lanka was established in April 1998 with the vision of maximum employability of graduates with minimum waiting time period through proper guidance and improve qualities that enable them to achieve a successful future career.

The employment market has become highly competitive in the current context. The corporate sector expects graduates not only with academic and research competencies but also with soft skills, personal development attributes, positive attitudes, and leadership qualities. Therefore, only the right candidates, that is the most competent, proficient and innovative ones with correct attitudes, secure employment opportunities.

The Career Guidance Unit supports all undergraduates to develop demanding career skills of the corporate sector, such as effective communication skills, leadership skills, teamwork skills, and management skills, so that they will become productive and efficient members of the workforce. The center further assists individuals in achieving their desired career goals and career planning. The said meanings are accomplished through the development of career prospects through diverse means, oriented around individual years of the undergraduate life.

THE CENTER FOR GENDER EQUITY AND EQUALITY

Gender inequalities and violence including that of sexual and gender-based violence in the Universities have been reported as significant shortcomings in the Sri Lankan University System. As a solution, University Grants Commission (UGC) has taken up the initiative to minimize all forms of violence including SGBV by promoting all state universities to establish Gender Equity and Equality Focal Points. Accordingly, the Centre for Gender Equity and Equality (CGEE) of the Sabaragamuwa University of Sri Lanka was established in January 2017, with the objective of instigating a gender-sensitive university sub-culture that allows students and university staff (academic/administrative/non-academic) to pursue their work without discrimination and oppression. The CGEE/SUSL has a solid policy framework on gender equity and equality and the stipulated functions of CGEE/SUSL are to to provide training on gender equity and equality for the establishment of a core team of gender experts, to conduct research, review policies and contribute policy inputs at the university level, to do the curricular reforms to inculcate the concepts and practices of GEE, to prevent and respond to SGBV by empowering staff and students to prevent and respond to SGBV and to inquire complaints of sexual and gender-based violence and propose to university councils for disciplinary actions to offenders and facilities to victims. Further, CGEE/ SUSL currently has eight faculty cells, with the intention of facilitating the CGEE by creating gender sensitive environment at the faculty level.

THE CENTRE FOR INDIGENOUS KNOWLEDGE AND COMMUNITY STUDIES

The Centre for Indigenous Knowledge and Community Studies (CIKCS) was established on 18th December, 2006 at the Sabaragamuwa University of Sri Lanka with the aim of providing facilities for those who are interested in postgraduate studies in Indigenous Knowledge and Community Studies. Currently, CIKCS offers two postgraduate degree programmes, namely Masters of Philosophy (MPhil) and Doctor of Philosophy (PhD). Candidates from any discipline who wish to follow the above courses in the Centre for Indigenous Knowledge and Community Studies are encouraged to pursue indigenous studies pertaining to Sri Lanka or any other country in the world. The Centre intends to increase the student capacity yearly and motivate them to complete their research degrees successfully. By today, 32 postgraduate students have completed their postgraduate degrees at CIKCS. Currently, the Centre has a total of approximately 129 postgraduate students.

CIKCS assures researcher training, enabling access to multidisciplinary knowledge, and the acquisition of advanced research skills. It contributes to national development by producing competent researchers who propagate and disseminate indigenous knowledge ensuring a sustainable future in socio-cultural and environmental spheres.

UNIVERSITY BUSINESS LINKAGE CELL

The main aim of University Business Linkage Cell of Sabaragamuwa University of Sri Lanka (SUSL) is to create a platform to link academia with the industry for a sustainable innovation eco system. The UBLC of SUSL has made a tremendous success during the short period of its establishment.

The UBLC's impressive track record in innovation is highlighted by the successful transfer of eight (8) groundbreaking inventions to industry, aimed at bringing these innovations to the market. Among them, two (2) products are in the market. In view of facilitating research collaborations nationally and internationally, the UBLC has been instrumental in establishing over twenty 20 private-public partnerships and agreements with industry partners. The primary focuses of these partnerships are to create value for the inventors and for the university community.

By recognizing the importance of protecting intellectual property, the UBLC has actively engaged in securing patent rights and other related IP rights in local and international jurisdictions. As of to date, UBLC has filed 23 national patents at the National Intellectual Property Office, and among them three patents are already granted. Additionally, the UBLC has also gained international recognition for its move to file three patent applications which are published at the World Intellectual Property Organization (WIPO).

Apart from those, the UBLC is in the forefront of disseminating IP knowledge among the university and business community. It has delivered several awareness workshops and online webinars to ensuring wider awareness of this unique emerging field.

Moreover, UBLC has provided seed capital for the students' project, assisting them to get their innovative ideas off the ground.

Undoubtedly, the UBLC will flag the university among high-ranked universities in Sri Lanka and in the world before long.

CENTER FOR OPEN AND DISTANCE LEARNING (CODL)

Centre for Open and Distance Learning (CODL) of the Sabaragamuwa University of Sri Lanka was established to administer and coordinate all external degree programmes, higher diplomas, diplomas, certificate courses and extension programmes conducted by the faculties, departments, centers, and units of the university.
The courses conducted by CODL include Higher Diploma in English, Higher Diploma in Co-operative Business Management, Diploma in English, Diploma in Financial Management, Diploma in Tourism and Hospitality Management, Diploma in Pre-school Teacher Training, Diploma in Soware Engineering, Diploma in Business Management, Certificate in English, Certificate in Computer and Information Technology, Certificate in Advanced Computer Aided Drawing, Certificate in Web Based Application Development and Certificate in Advanced Java Programming.We are in the process of implementing new external degree programmes in "Bachelor of Business Administration (General)" and "Bachelor of Arts (General)". Over the years, we have been able to establish an outstanding Distance Learning Environment for our external students.We ensure the quality of our programmes through continuous revisions to the curricula and hiring of quality lecturers. Our internal full-time students also benefit from the Distance Learning Programmes conducted at the CODL.

ARTS CENTER

The Arts Center of the Sabaragamuwa University of Sri Lanka has been established in 2011 under the provision of the University Act No. 16 of 1978 with the aim of enhancing aesthetic skills and creativity of undergraduates and all the staff members ofthe university as well as to build a platform to showcase their talents. According to the constitutionof the Arts Center, it is administered by a director, a secretary, a treasurer and eleven representatives from academic, administrative and non-academic staff members appointed by the Vice Chancellor for a period of one year.

The Arts center mainly involves in supporting to promote the university community's, especially undergraduate students' aesthetic activities. In this regard, the Arts center has been equipped with musical instruments and related accessories, and technical expertise. Moreover, the Arts center provides audio facility and technical supports to certain events organized by the university community as well as some schools nearby the university upon their request as community services.

THE STAFF DEVELOPMENT CENTER (SDC)

The Staff Development Center (SDC) of the Sabaragamuwa University of Sri Lanka was established as a central unit to conduct training programmes to develop skills and knowledge of all categories of members of the staff of the university. The SDC always takes measures to enhance the knowledge and skills of the communities in the university system in Sri Lanka to obtain an efficient and effective service from the university staff in a friendly environment in general and to contribute to the national development in a broader context. One of the major activities conducted through the SDC is the organizing of programmes on developing teaching skills of lecturers essential in producing marketable undergraduates. SDC annually conducts the Induction Programme for the academic staff and trains the academics with novel teaching methodologies, IT based teaching tools and student counselling. Apart from the training programmes for the academic staff, the SDC conducts programmes for the administrative staff development and general staff development and awareness programmes on health and safety.The center has a team of expert resource persons involved in conducting the activies and programmes. The Staff Development Center is well equipped with modern state-of-the-art teaching tools and communication tools where an audio visual unit and a video conferencing unit are facilitating the programmes to be conducted effectively and efficiently.

CENTER FOR QUALITY ASSURANCE (CQA)

Center for Quality Assurance (CQA) of the Sabaragamuwa University of Sri Lanka was established in compliance with the UGC Circular No. 04/2015 as a coordinated body of the Quality Assurance and Accreditation Council of the University Grants Commission funded by the HETC project. CQA is primarily in place to safeguard academic standards and quality of higher education and to inform and encourage continuous improvement in the management of the quality of higher education. CQA of Sabaragamuwa University oversees quality assurance of all teaching and learning processes, student support and institutional development. CQA ensures that the Sabaragamuwa University operates in conformity with the Sri Lankan Qualification Framework (SLQF) and academic standards and accreditation set forth by the Quality Assurance Council of UGC.

The internal QA processes of the university are in conformity with the Internal Quality Assurance Policy Framework. The CQA is headed by a director, who is guided by the Senate Standing committee on Quality Assurance (SSCQA). The SSCQA is chaired by the Vice Chancellor of the university, and is constituted as per the guidelines issued by the University Grants Commission in this regard. Faculty level quality assurance activities are managed by the Faculty Quality Assurance Committees of the Faculty Quality Assurance Cells, which were established as per the QA By-Laws. Quality of the academic culture in Sabaragamuwa University has been substantially improved through the activities of CQA and this has been clearly demonstrated through the very high quality of academic programmes offered by the university as reflected by the outcomes of the past programme reviews. There are several policies, standard operational procedures, best practices have been established in the University through the CQA which enhances the quality culture in the University.

THE CENTER FOR COMPUTER STUDIES (CCS)

The Center for Computer Studies (CCS) of the Sabaragamuwa University of Sri Lanka is a service center and it empowers members of the academic, academic support, and non-academic staff to provide various services to the enre university. It offers not only the academic related services but also ICT related technical services to the university community. The CCS provides lecturers and instructors for conducting IT and computer science related subjects at different faculties of the university and consequently, it helps to prepare and update IT related curricula of those faculties. Furthermore, the university Learning Management System (LMS) has also been established and maintained by the CCS, and it electronically generates more facilitated and sophiscated knowledge transferring environment in teaching and learning for both the academic staff and students of the university. Another important facility provided by the CCS is technical services such as establishing and maintaining campus-wide Local Area Network with more than a thousand of networked computers, enhancing with the internet facility and maintaining IP phone system of the entire university, several Wi-Fi areas pertaining to the faculties, and video conferencing units which have been established to facilitate academic and administrative activies. In 2009, the CCS upgraded the internet speed to 700MBps, dedicated to supporting the needs of the research and education community within the university. It also provides services by repairing all the IT related equipment such as computers, laptops, multimedia projectors and sound systems and give technical recommendations for purchasing and repairing such equipment not only within the university but also for other government offices in the region. It facilitates a Help Desk for both staff of the university and the students for querying their IT related matters on both hardware and software and helps to solve them. The Sabaragamuwa University web site and many other web based dynamic applications such as online result displaying systems, online teacher evaluating systems, online student registration systems and online students communication systems have been analyzed, designed and deployed by the CCS during the past decade and such systems, with the provision of various enhancements to the university and its community, are continuously maintained. Moreover, the CCS is the place that provides plans and instructions to establish more enhanced IT infrastructure and software environment for the university to face future require ments

SITHARANA COUNSELLING CENTER

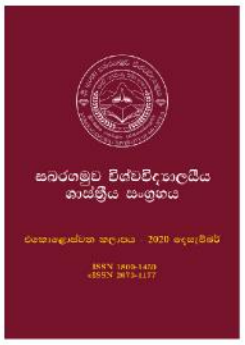
Sitharana Counselling Center was founded in 2010 and located at the Faculty of Social Sciences and Languages of the Sabaragamuwa University of Sri Lanka. This center mainly provides its services to the students of the university. Addionally, Sitharana extends services to academic, administrative, non-academic staff and the community as well. Counselling today has become a need for all. Sitharana gives a friendly, professional and trustworthy help to come out of the difficulties our clients experience. People who go through minor or major issues in academic work, relationships, personality or performance and distress due to physical or psychiatric illnesses, loneliness and moods and addiction get the help of Sitharana. The center has developed links with the supportive institutions and organizations in the region. Psychological counsellors at Sitharana work on volunteer basis. Sitharana Counselling Center has the objectives of assuring a student friendly and supportive teaching and learning environment while serving social responsibility of the Sabaragamuwa University of Sri Lanka.

Journals – Sabaragamuwa University of Sri Lanka

SABARAGAMUWA UNIVERSITY JOURNAL

The Sabaragamuwa University Journal is an open access and peer reviewed journal dedicated to publishing research from broader disciplines. The Journal provides a forum for Sri Lankan and international scholars to share, contribute and promote original research, reviews and research communications in all disciplines. The manuscripts undergo an initial editorial review for content and basic format. The approved manuscripts undergo rigorous screening and a thorough peer review by at least two reviewers selected from a panel of Sri Lankan and international experts. The Sabaragamuwa University Journal is published biannually

SABARAGAMUWA UNIVERSITY SHAASTHREEYA SANGRAHAYA

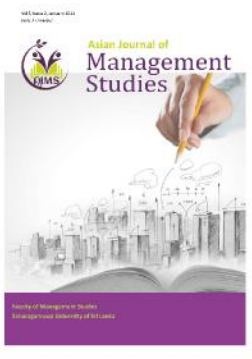


Sabaragamuwa University Shaasthreeya Sangrahaya is a peer-reviewed journal that is published by the Sabaragamuwa University of Sri Lanka in Sinhala language. It is open for the publication of research articles, reviews and research communications in all disciplines including arts, social and natural sciences, humanities and literature, which are written in Sinhala language, those promote pioneering work. All articles sent to the journal for publication are reviewed by an expert panel of reviewers while the invited articles authored by veteran scholars are examined by the Editorial Board of the journal.

"NARRATIONS" (AKYANA) JOURNAL

"Narrations" (Akyana) Journal is an online refereed journal that is published biannually by the Center for Indigenous Knowledge and Community Studies at the Sabaragamuwa University of Sri Lanka. It was started with the intention of providing scholarly space for those who investigate indigenous communities and traditional and conventional knowledge to publish their findings. The journal accepts articles written both in Sinhala and English languages and they are reviewed by an expert panel of reviewers

ASIAN JOURNAL OF MANAGEMENT STUDIES



The Asian Journal of Management Studies (AJMS) is a double-blind peer-reviewed scholarly journal in the field of business and management. AJMS aims to publish scholarly work in the field of business, management, and organizations in the local, regional and global arena. It is published twice a year (June and December) by the Faculty of Management Studies of the Sabaragamuwa University of Sri Lanka. Thus, its aim is three-fold:

a. to benchmark the faculty's contribution for the growth of the body of knowledge in management science

b. to promote and provide convenient access to publish and the research works of our own staff, students and external researchers

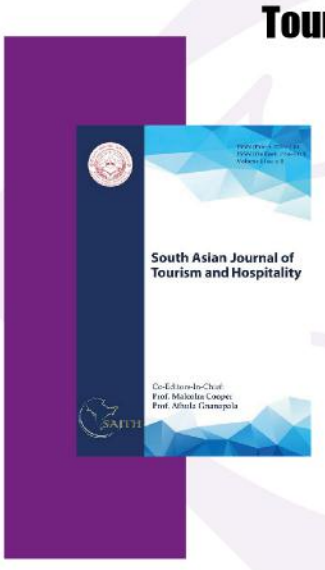
c. to maintain the faculty journal as an updated channel to provide solutions for unsolved problems while maintaining academic in knowledge dissemination.

Embracing a multidisciplinary approach to the field, AJMS publishes papers on a wide range of topics related to business and management.

Asian Journal of Finance

Asian Journal of Finance (AJF) is a peer-reviewed, open-access journal published by the Faculty of Management Studies and managed by the Department of Accountancy and Finance, Sabaragamuwa University of Sri Lanka. It is a bi-annual scholarly outlet for interdisciplinary publications in Asia. AJF is an eclectic international forum for insights, innovations, and advances in Banking, Insurance, Finance, Accounting, and Economics and study designs using qualitative, quantitative, or mixed methods research.

South Asian Journal of Tourism Management



South Asian Journal of Tourism and Hospitality (SAJTH) is a peer-reviewed,double-blind open-access journal of the Faculty of Management Studies, Sabaragamuwa University of Sri Lanka. It is a premier bi-annual outlet for substantive research in tourism and hospitality in and out of South Asia.

South Asian Journal of Marketing

The South Asian Journal of Marketing (SAJM) is an international, open access, peer-reviewed academic journal focusing on all topics related to Marketing with a particular emphasis on the South Asia region. The journal is published by Emerald and managed by the Faculty of Management Studies, the Sabaragamuwa University of Sri Lanka on behalf of the Sri Lanka Institute of Marketing. The SAJM aims to cater to a wide and intellectually advanced audience and hence expects all contributions to the Journal to be of rigorous intellectual clarity, with well-researched literature and easily understood by a wide audience.

JOURNAL OF GEOSPATIAL SURVEYING

The Journal of Geospatial Surveying is a peer-reviewed journal aiming to publish original and fundamental research, and technical developments in the field of Geo-informatics and Surveying, encompassing Land Surveying, Hydrographic Surveying, Remote Sensing, Photogrammetry, Cartography, Geographic Information Systems, Global Positioning Systems, and Land Management. Its goal is to provide a forum for Sri Lankan and international scholars to publish high-quality articles dealing with innovations in theoretical, experimental, and system design aspects.

Research papers submitted for publication should have a sound disciplinary basis, and cross-disciplinary contributions are also encour- aged.

The journal aims to serve both academia and the industry of Geoin- formatics and Surveying. JGS publishes two issues per year, and is an open access journal with no Article Processing Charge (APC).

Sri Lanka Journal of Social Sciences and Humanities

The Sri Lanka Journal of Social Sciences and Humanities (SLJSSH) is an open-access, double-blind, peer-reviewed scholarly journal in the field of Social Sciences and Humanities. It is published twice a year (in February and August).

SLJSSH aims to publish scholarly work by promoting multi-disciplinary studies in Social Sciences and Humanities. SLJSSH is not restricted to a specific research paradigm and welcomes submissions adopting a variety of methodologies and methods: quantitative, qualitative, and mixed. It provides national and international scholars with an intellectual platform for publication in a quality journal. It publishes high-quality original articles based on any aspects of theoretical, conceptual, empirical, or case-based research that contribute to the advancement of knowledge in all areas of Social Sciences and Humanities.

Sri Lanka Journal of Economics, Statistics, and Information Management

Sri Lanka Journal of Economics, Statistics, and Information Management is an international open-access, peer-reviewed, and refereed journal which is published by the Department of Economics and Statistics, Faculty of Social Sciences and Languages, Sabaragamuwa University of Sri Lanka. The journal provides academics, researchers, and professionals with a platform to share the latest developments and advances in Economics, Statistics, and Information Management.

Sri Lanka Journal of Geography and Environmental Management

Sri Lanka Journal of Geography and Environmental Management attracts submissions from scholars focusing on theoretical, experimental, policy, and practitioner issues within the fields of GEM. The journal's contents reflect its integrative approach, including primary research articles, discussions of current issues, empirical studies, literature reviews, case studies, conceptual models, reports, and book reviews. The SLJGEM is published by the Department of Geography and Environmental Management, Sabaragamuwa University of Sri Lanka, in both print and online versions.

LOGOS

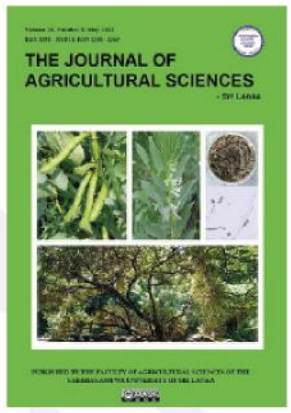
LOGOS, published by the Department of Languages of Sabaragamuwa University (SUSL) of Sri Lanka, is the first-ever multilingual journal in Sri Lanka which is published in both printed and electronic forms. The first issue is published as a felicitation to Emeritus Professor Rajiva Wijesinha, a well-renowned scholar in the field of English, who made a substantial contribution to the enhancement of the quality and standards of the Department of Languages, Sabaragamuwa University of Sri Lanka.

Sabaragamuwa University Journal of Computer Science (SUJCS)

Sabaragamuwa University Journal of Computer Science (SUJCS) is a peer reviewed journal aiming to publish high quality articles on topical issues in new theoretical results in all areas of Communication Networks & Information Technologies, Mobile Computing, Data Mining & Knowledge Discovery, Software Engineering, Database Management & Information Retrieval, Human Computer Interaction, Multimedia Computing, Information Systems Applications & Security, Parallel and Distributed Technologies, Cloud Applications and Computing.

The journal provides a forum for academic and industrial scholars to publish authoritative and well referenced review or research articles which contribute new theoretical results in all areas of Computing. SUJCS is published by the Faculty of Computing, Sabaragamuwa University of Sri Lanka.s.

Journal of Agricultural Sciences – Sri Lanka



The Journal of Agricultural Sciences – Sri Lanka (JAS-SL) is an open access and a peer reviewed journal aiming to publish high quality articles on contemporary issues in agricultural sciences. The journal provides a forum for Sri Lankan and international scholars to publish authoritative and well referenced articles in agriculture and allied areas. The Journal of Agricultural Sciences -Sri Lanka publishes three issues a year in January, May and September.

It publishes original research work, book reviews, short communications and review articles. Papers submitted for publication are strictly double-blind peer reviewed. JAS-SL is published by the Faculty of Agricultural Sciences of Sabaragamuwa University of Sri Lanka. The journal adheres to the publication ethics as depicted by the Committee on Publication Ethics (COPE) and is a member of COPE. It is indexed in Web of Science (WoS) as an ESCI journal, Scopus, DOAJ and EBSCO. The Journal is available on the website of Sabaragamuwa University of Sri Lanka and can be accessed via http://www.sab.ac.lk/agri-journal or https://jas.sljol.info

Magazines – Sabaragamuwa University of Sri Lanka

"Udyama – Management Digest"

With the intention of becoming the most innovative and eco – efficient center of excellence in higher education and research in management studies "Udyama – Management Digest" the official magazine of the faculty of management studies, Sabaragamuwa university of Sri Lanka is an attempt to uplift the society by sharing knowledge by providing the platform for pragmatic dialog in the management discipline.

It aims to update information among the wider community while bridging the gap between academic and industry. The magazine covers a wide range of topics relevant to modern business management..

The View Magazine

Volume: 01 Issue: 01

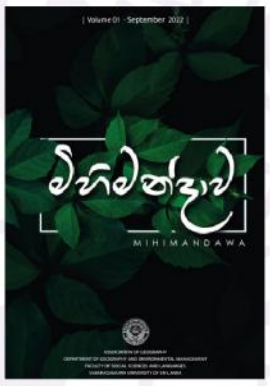
Volume: 01 Issue: 02

Volume: 2 Issue: 01

The View Magazine is a biannual e-magazine published by the Department of Economics and Statistics, Faculty of Social Sciences and Languages, Sabaragamuwa University of Sri Lanka. The magazine provides academics, researchers, and professionals with a platform to share the latest developments and advances in different topics

The Mihimandawa Magazine

The "Mihimandawa" magazine is published by the Department of Geography and Environmental Management, Faculty of Social Sciences and Languages, Sabaragamuwa University of Sri Lanka, as a biannual e-magazine. This e-magazine is a great opportunity for all the explorers in the world who are eager to disseminate knowledge. As Geography is a wide-ranging subject, equipping readers with knowledge is the main purpose of this magazine.



The magazine consists of the articles of the students in the Department of Geography and Environmental Management, and those articles are available in Sinhala, English, and Tamil languages. The magazine comprises articles, poems, and illustrations regarding geographical aspects, phenomena of geography, and global issues related to geography. This e-magazine will provide a variety of advantages for everyone with its understandable language. Further, each article will make you interested in the world and add value to your knowledge.

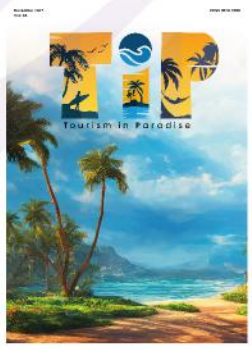
ComSpective, the bi-anual ICT technical Magazine

ComSpective - the bi-anual ICT Technical Magazine presented by the Faculty of Computing, Sabaragamuwa University of Sri Lanka aims to explore today's world-changing sciences and technologies in the domain of computing. It intends to take a step forward to unite with scholars, industry professionals, logical thinkers, and problem-solvers. The first issue of the magazine was launched in February 2021 in parallel to the 25th Anniversary Celebrations of the SUSL. As the latest edition, the Volume 03 Issue 1 of ComSpective has been released on 10th of May 2023.

ComSpective provides a brilliant opportunity for individuals who wish to contribute to the knowledge-base through articles on their research investigations, insights, and experiences in the domain of computing.

Tourism in Paradise (TiP)

Tourism in Paradise (TiP) is a groundbreaking publication originating from a state university in Sri Lanka, dedicated to the exploration of tourism-related subjects. Since its inception in 2018, this magazine has been proudly produced by the Department of Tourism Management, annually aligning its content with the designated themes of World Tourism Day as outlined by the United Nations World Tourism Organization.



As time progressed, TiP underwent a transformative evolution, adopting a more thematic and metaphorical approach. It delved into captivating topics such as seasonality, fantasies, and their practical applications within the tourism industry, while also delving into the theoretical aspects of tourism academia. Throughout its existence, TiP has been enriched by the invaluable contributions of numerous tourism academics, practitioners, and students from around the world.

Excitingly, the TiP team eagerly anticipates the release of their upcoming sixth volume during the winter of 2023. With a commitment to delivering fresh perspectives and engaging content, TiP continues to push boundaries and inspire readers with its passion for the diverse world of tourism."
