

Rotaract Club Projects

01. Frosty Fest

Frosty Fest is our annual Christmas tradition filled with compassion and joy.

We visit the Paediatric Wards of Teaching Hospital Ratnapura to sing carols and spread festive cheer among the little ones. The day ends with a lively Christmas gathering for our members, filled with games, laughter, and fellowship.

02.Nonim Paura

"Nonim Paura" is one of the signature projects of the Rotaract Club at the Faculty of Medicine, SUSL.

We aim to provide support to low-income students who are facing difficulties due to the prevailing

economic crisis in the country.

Our project involves selecting a school in a rural area and donating essential stationary items such as books, pens, school bags, footwear, and sports

items. The goal is to help these students and brighten

their future through education
